Commissioner-for-Patents

---

The amendment filed on August 23, 2003 canceling all claims drawn to the elected invention (claims 1-28 per Applicant's election of March 25, 2004) and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because the non-elected claims appear to be a distinct species of an in-plane switching liquid crystal display device and method drawn to common and pixel electrodes forming an alternating pattern and wherein the common electrodes include an outermost common electrode adjacent to a data line and the outermost common electrode and data line are on different layers and a portion of the outermost common electrode overlaps the data line.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
